

# The Leadership Sanctuary

## PROGRAM PURPOSE

Nonprofit leaders face an ever more complex and challenging environment around fundraising, managing change, and meeting growing social needs. As volunteers and hired professionals, our leadership is a critical factor in achieving goals. However, many of us feel overwhelmed or in question of how to lead with confidence and clarity. **The Leadership Sanctuary** offers this opportunity. Participants meet in small peer groups with a certified coach/facilitator to learn rigorous practices and to share case studies that prepare us to be bold and centered leaders.

## PROGRAM OBJECTIVES

To create a confidential, supportive and yet rigorous executive community for nonprofit leaders to:

- Strengthen our leadership skills in our roles working with staff, board, and community,
- Expand our capacity to be strategic, calm and resilient in the face of the most difficult, sensitive, risky and urgent challenges,
- Build our personal confidence and executive presence,
- Accelerate our progress in achieving strategic and programmatic commitments,
- Build a community of peers.

Executive Coaching  
and Peer Group

*"I'm much more cognizant of my actions and intentions. When things get tough or I'm triggered in a big way, I stop to remind myself why I am here (my declaration) and to ask whether this bump in the road will or won't throw me off track."*

*-Grace Lee, Executive Director  
National Park Trust*
